In the Netherlands we always speak about gross salary, so before any tax is deducted. In order to calculate your net salary you can use the following online tool at

Hit on the button 'bereken jouw salaris'. Enter your gross salary in the 1st box 'Salaris' and fill in the other fields name etc. hit the button 'bereken'. The outcome is the approximate net salary. When you are eligible for the 30% ruling the outcome will be different. Your Middle Point consultant can tell you more about this.

5. Partner and/or family

Of course, you would like your loved ones to join as soon as possible, but experience has taught us that it's best to start off on your own. We advise to settle down for at least two months before you bring your family over. You will need this period to get to arrange certain things such as suitable accommodation before you bring your family over.

6. Taxes (belasting)

Everybody pays taxes, but in most cases you are entitled to a tax refund at the end of the tax year. The amount depends on your individual situation. If you submit the application forms before the 1st of April, you should get the refund around June/July.

Please see our website's toolbox for more information on this topic.
